

PROPERTY SERVICES WORKS NOTICE

CRANE LIFT OF MATERIALS

BUILDING 201 - BUNDOORA WEST CAMPUS

DESCRIPTION OF WORKS

Property Services, as part of Building 201 air distribution upgrade works, will be conducting an essential crane lift of materials for Building 201 at RMIT Bundoora West campus.

REASON FOR WORKS

These works form part of the Sustainable Urban Precincts Program (SUPP) and will improve RMIT's energy usage associated with University operations at the Bundoora West campus. Property Services appreciate your assistance and patience whilst we work together towards a more sustainable RMIT.

AFFECTED SERVICES/AREAS

Property Services have engaged Honeywell as the Principal Contractor to manage these works and they have been instructed to ensure continuity of operations is not compromised.

Works will occur outside of building 201. Pedestrian egress from building 201 will be altered. A temporary pathway with appropriate barricading and signage will be in place to protect pedestrians during lift.

Vehicle access/egress to the service tunnel will be blocked for the duration of the lift as per the attached Traffic Management of Deliveries.

Pedestrian access/egress into the tunnel will be altered at the western exit (only) via corridor and auto doors.

Deliveries to mail room and B202 will be managed by temporary traffic control at eastern entrance to tunnel as per the attached plan.

PROPERTY SERVICES WORKS NOTICE

DATE AND DURATION OF WORKS

Friday 11th November 2016

Hours of works are between 06:00am – 04:00pm
