10 reasons to study at RMIT University

Pharmaceutical Sciences

1. Graduate job ready for a career in the biopharmaceuticals industry, Australia’s largest technology export.

2. Set yourself apart with a degree regarded as the best pharmaceutical sciences curriculum by Australian employers.

3. Get ahead of the pack: our graduate employment rates are higher than similar degrees at other universities.*

4. Obtain the skills that employers are looking for with our industry partnered program.

5. Learning by doing takes you out of the classroom and into the pharmaceutical industry.

6. Graduate work ready and experienced with a 40-week industry placement.

7. Follow your own path: enquire about our multiple entry and exit points, including articulation into the RMIT pharmacy degree.

8. State-of-the-art, interactive teaching facilities on our purpose built health and medical sciences campus.

9. Learn in small class sizes with our award winning, teaching focused academic staff.

10. Unlock your global passport: opportunities within the program to study abroad or gain international experience.

* 78% of our graduates are working in the pharmaceutical industry within three months of graduation (average data over five years).
