

SUMMER SCHOLARS PROGRAM

NICTA FUNDS SCHOLARSHIP OPPORTUNITIES IN A VARIETY OF SUMMER OR VACATION PROGRAMS OFFERED THROUGH OUR PARTNER UNIVERSITIES.

NICTA's Summer Scholars Program is structured to provide undergraduates with the opportunity to explore the potential for a career in Information and Communications Technology (ICT) research. Summer Scholars are exposed to the professional research resources and facilities at NICTA via this nationally recognised program.

The two principal elements of the Summer Scholars Program are:

- 1 Each scholar completes a research project and submits an individual technical report, under the supervision of a NICTA researcher who assumes the role of mentor for the summer.
- 2 Scholars from all of NICTA's laboratories attend a Summer Scholars Showcase. This is an exclusive event designed to demonstrate NICTA's work in ICT and to connect participants with NICTA PhD students, researchers and ICT leaders to learn about their experiences. The showcase features pre-eminent keynote speakers, plenty of opportunity to network and culminates in a grand research challenge for scholars to get an immediate taste of research at NICTA.

KEY DATES

(each University differs - approximates only - see over for more details)

Students are awarded a tax-exempt scholarship for the duration of the summer research experience.

NICTA covers travel and accommodation for interstate students to attend the Showcase.

JULY/AUGUST

APPLICATIONS OPEN, CHECK UNIVERSITY WEBSITES

MID NOV/EARLY DEC

RESEARCH PERIOD COMMENCES

EARLY DECEMBER

SUMMER SCHOLAR SHOWCASE AT A NICTA LAB IN EITHER SYDNEY, CANBERRA, MELBOURNE OR BRISBANE

FEBRUARY

PROGRAM ENDS WITH PROJECT PRESENTATIONS AND A PRIZEGIVING

SUMMER SCHOLARS PROGRAM
