**Course Description**

This course aims to provide you with the skills and abilities to distinguish between different sources of law and types of law, which exist in Australia. You will develop skills and knowledge relating to the analysis and application of legal principles to actual situations.

**Objectives/Learning Outcomes/Capability Development**

**Course Capabilities**

This course will help you to develop your ability to:

- Describe and apply the law
- Investigate a range of solutions to resolve legal problems
- Communicate effectively in groups when analysing legal problems
- Analyse case studies and make appropriate recommendations to business for legal and compliance related issues.

**Learning Outcomes**

At the successful completion of this course you should be able to:

1. Describe the structures and sources of Australian law.
2. Apply a range of communication techniques, both generic and written, relevant to a range of businesses and their legal and compliance requirements.
3. Evaluate the effect of a range of legal problems and determine appropriate responses for businesses through relevant management strategies.
4. Develop reasoned viewpoints, draw conclusions, and make recommendations after interpreting, analysing, and evaluating...
