

Career: Undergraduate, Bachelor of Engineering
Program: Aerospace Engineering
Program Code: BP069

Student Name: _____

Student Number: _____

Summary of BP069B.Eng (Aerospace Engineering) Years 1 and 2 program information for students who entered Year 1 mid-year in 2011

If you have commenced study in July (mid-year entry) you will have a slightly different sequence in your program map for Years 1 and 2 from those students who commenced in February/March and also you should complete the first two years in 20 months, including summer semesters. The reason for this is that not all courses are run in both semesters, and some courses require the completion of pre-requisites prior to enrolling in them, or are pre-requisites themselves.

It is important to note that if you entered first year via mid-year entry, you will need to attend Summer Semester courses from early January to the week before regular classes start. In 2012 the relevant core Summer Semester courses are run from 9 January to 26 February. Students will be required to enrol in Summer Semester courses within the School, Building 57, Level 3 in the December prior to the Summer Semester by completing an Enrolment Variation Form, as enrolment online is not provided for Summer Semester courses.

Program map for Years 1 and 2 for BP069 students who entered Year 1 mid-year in 2011

Year 1, Semester 2 2011 (Mid Year Intake only – this is the first semester of your program)

Please select the following 4 courses to start your studies at RMIT:

Course Title	Credit Points	Prereqs/ Coreqs	Course Code	Campus	Class number
Engineering Mechanics	12		MIET2097	City Campus	1751
Engineering Mathematics C	12		MATH2117	City Campus	3371
Aerospace Engineering Professional Skills 2	12		AERO2250	City Campus	1766
Thermo-Fluid Mechanics	12		MIET2095	City Campus	1752

Year 1, Summer Semester 2012[^] (Mid Year Intake Only – this is the second semester of your program)

Course Title	Credit Points	Prereqs/ Coreqs	Course Code	Campus	Class number
Solid Mechanics & Materials 1	12	Yes	AERO2247	City Campus	To be advised
Further Engineering Maths C	12	Yes	MATH2118	City Campus	To be advised

[^] See introduction for dates and special enrolment information

**Year 1-2, Semester 1 2012****(Mid Year Intake only – this is the third semester of your program)**

Course Title	Credit Points	Prereqs/ Coreqs	Course Code	Campus	Class number
Engineering Society and Sustainability	12		AERO2248	City Campus	To be advised
Introduction to Aircraft	12		AERO2376	City Campus	To be advised
Aerospace Design 1	12	Yes	AERO2430	City Campus	To be advised
Solid Mechanics & Materials 2	12	Yes	MIET2115	City Campus	To be advised

Year 2, Semester 2 2012**(Mid Year Intake only – this is the fourth semester of your program)**

Course Title	Credit Points	Prereqs/ Coreqs	Course Code	Campus	Class number
Aerospace Design 2	12		AERO2252	City Campus	To be advised
Systems Engineering	12	Yes	AERO2355	City Campus	To be advised
Introduction to Aerodynamics	12	Yes	AERO2356	City Campus	To be advised
Maths & Stats for Aerospace, Mechanical & Manufacturing Eng	12	Yes	MATH2124	City Campus	To be advised

Year 2, Summer Semester^ 2013**(Mid Year Intake Only – this is the fifth semester of your program)**

Course Title	Credit Points	Prereqs/ Coreqs	Course Code	Campus	Class number
Dynamics	12	Yes	MIET2124	City Campus	To be advised
You must complete 1 University Student Elective	12				

^ See introduction for dates and special enrolment information

When you have completed the above 16 courses you will be able to go to Year 3 of the program which will commence in semester 1 of 2012 for you.
