

# City campus access map

Some travel routes into and around City campus will change while construction is underway on the Metro Tunnel Project. This map shows estimated walk times and changes to City campus access during Metro Tunnel's construction.

Produced from information supplied by Property Services. February 2017.

# Metro Tunnel

## Changing how you move around City campus

As part of the Metro Tunnel Project, a new underground station is being built on the doorstep of RMIT.

The Metro Tunnel construction zone is within our City campus precinct.

Some travel routes into and around the city and RMIT's City campus will change while CBD North Station and the new tunnels are built.

### Moving between campus buildings

From early 2017, how you walk or cycle around City campus, especially around Building 14 and Building 80, may be affected by Metro Tunnel's construction.

- Franklin Street will be closed between Victoria Street and Swanston Street, with pedestrian access available from Bowen Street and University Way.
- A'Beckett Street will be closed between Swanston Street and Stewart Street.
- Stewart Street will be open to vehicles, street seating will no longer be available and there will be modified access to A'Beckett Urban Square basketball courts and BBQ area.

These changes will be in place for up to five years and will affect pedestrian, cycling and vehicle access.

### What do you need to do?

**Give yourself more time to get to campus and between buildings.**

- It might take a bit longer to walk around construction areas near campus.
- Trucks entering or exiting may cause short delays.
- You can walk through the Swanston Academic Building to get to A'Beckett Urban Square from Swanston Street.
- Park your bike at our state-of-the-art Bike Hub in Building 51 and walk around campus.

**Walk and ride safe: follow signs and diversions around the construction area.**

- There will be more trucks and heavy vehicles around the campus precinct during Metro Tunnel's construction.

### Cycling to campus

Make use of our 400 bicycle capacity Bike Hub in Building 51 on Cardigan Street. It has secure bike parking, a repair station, and shower and change facilities.

Go to RMIT Security to get access added to your student/staff card, or apply online:

[www.rmit.edu.au/security](http://www.rmit.edu.au/security)

### Working together

The Metro Tunnel Project is being delivered by the Melbourne Metro Rail Authority (MMRA).

MMRA is working with RMIT to help students and staff better manage their travel to campus during construction. For more information about RMIT and the Metro Tunnel Project, visit:
