Graduate Opportunity

Introduction to the role
An opportunity to join the market-leading provider of geo-spatial IT services in Australia and New Zealand. Established in 1996, we-do-IT is a key provider of specialist GIS consulting, development, training and support services to a wide range of clients in Australia, New Zealand and internationally.

We are currently seeking graduates for permanent positions in Melbourne. Ideally we are looking for candidates that have graduated recently in Geospatial Sciences, Computer Science, Geomatics, Spatial Science or IT (with a specialisation in Spatial Technology). You will be a strong communicator with a collaborative working style and an ability to build strong relationships.

What’s on offer:
- The graduate program on offer will help fast-track your career.
- You will have a variety and a choice in the work you undertake.
- Customised learning and development programs.
- Partner with a dedicated senior mentor and have the opportunity to learn from industry specialists.
- And be exposed to continuous learning throughout your career.

You will gain exposure to all the phases of the software development lifecycle, you will be provided with training in Smallworld Core GIS technology, SIAS, PNI, and Magik programming. Eventually you will be responsible for analysing customer problems and requirements; designing and developing practical solutions to meet customers’ needs; providing database administration and development support in a customer facing role.

Essential Skills and Experience:
- Qualifications in Geomatics, Spatial Science or IT (with a specialisation in Spatial Technology)
- Exceptional written and verbal communication skills
- Strong numeric and data analysis skills, with evidence of ability to think logically & rationally
- Excellent interpersonal and time management skills
- Strong computer skills (including MS Word, PowerPoint, Excel, Outlook)

Desirable skills and experience:
- Keen interest in the utility industries (electricity, gas, telecommunication, water)

What we offer:
An attractive remuneration package will be negotiated with the successful candidate. we-do-IT offers outstanding long-term career opportunities within Australia and abroad, and is an equal opportunity employer.
