

MAKE YOUR BUDGETING AND FORECASTING PROCESS MORE EFFICIENT

“Decisive Solutions” together with “Wilson Business Services”

PRESENT

MONDELIO & WINFORECAST

Attend this **free information session** and hear about two tools designed specifically to help you achieve this

MONDELIO:

Mondelio is a revolutionary corporate performance management (CPM) software solution that meets all requirements for budgeting, forecasting, reporting, planning, business intelligence, balanced scorecards, feasibility studies, and corporate modelling.

Mondelio harnesses the latest technology to allow rapid implementation of secure, robust analytical applications that enhance existing Enterprise Resource Planning (ERP) and Business Intelligence (BI) investments.

Customers use Mondelio performance management software because it goes beyond spreadsheets and is flexible and easy to control. Mondelio empowers you to move, change, turn, accelerate or decelerate while operating in our unpredictable world.

WINFORECAST:

Financial Forecasting is key to business growth and success. Forecasting not only helps you and your business plan effectively for the future, it is also a powerful management tool.

A business can survive for a short time without sales or profits, but not without cash.

WinForecast produces a professionally presented integrated set of financial reports, which are reliable and up-to-date with actual figures, giving you more control over your business. These reports can be presented to your directors and bank manager with confidence!

If you would like to see how WinForecast can benefit your business, come to this seminar and we'll show you.
