IF YOU’RE SICK...
STAY AT HOME

If you’ve got a cold or flu, stay at home this winter

Staying at home gives your body the chance to recover and stops you passing your infection onto others. Make sure you tell someone you’re sick, so they can check on you.

If you’re not getting better, or you’re feeling worse:
• Phone Nurse on Call 1300 60 60 24 (24 hours a day, 7 days a week)
• See a doctor www.rmit.edu.au/healthservice/doctors

If you are sick, you may be eligible for Special Consideration. For more information on the eligibility criteria, go to www.rmit.edu.au/students/specialconsideration

More information is available on the Health Service web site
