Industry Connected

RMIT’s industry partners provide opportunities for meaningful, hands-on learning experiences.

Learn from innovative world leaders in your chosen field and gain connections and skills to help you find the right job when you graduate.

Some of our students have undertaken placements with:

Adidas, Airbus, Audi, Bayer, BMW, Boeing, Bosch, Chanel, Ericsson, Google, Kit Cosmetics, KPMG, Lufthansa, Nanjing University of Chinese Medicine (China), Nestlé, United Nations and Volkswagen.

In my first year at RMIT, I was invited to a talk hosted by the Australian Food Engineering Association, which was one of the pivot points in my career as the speakers encouraged gaining work experience.

“By the start of second year, I began my first part-time job as a student engineer at Vipac Engineers & Scientists, at a testing lab conducting quality control of consumer bathroom products.

“My advice to RMIT students is to start early. Work experience of any kind will allow you to practise proper time management but also deal with diverse personalities from all sorts of situations.”

Laura Ru Yun Pan
Bachelor of Science (Food Technology and Nutrition)/Bachelor of Engineering (Chemical Engineering) (Honours), Graduate

Industry mentoring program

Kickstart your career with support and advice from an industry mentor.
Global Opportunities

Employers look for students with an expanded world view, a keen cultural awareness and the ability to adapt to new and changing environments.

I undertook an internship at EADS Astrium Space Transportation in Bremen, Germany for nine months. During this time I got to work on multiple projects related to the topic I love – rocket science.

“Most importantly, the internship allowed me to access RMIT’s global network. The industry connections I made are opening doors to career opportunities I would never have dreamed possible.”

Nita Wiroonsup
Bachelor of Engineering (Aerospace Engineering)

Where can I go on exchange?

- Austria • Belgium • Brazil • Canada • Chile • China • Colombia
- Czech Republic • Denmark • England • Estonia • Finland • France
- Germany • Hong Kong • India • Indonesia • Ireland • Israel • Italy
- Japan • Malaysia • Mexico • Netherlands • New Zealand • Norway
- Philippines • Poland • Scotland • Singapore • South Africa • South Korea
- Spain • Sweden • Switzerland • Taiwan • Thailand • Turkey • USA
- Vietnam • Wales

www.rmit.edu.au/globalpassport/educationabroad
The New Academic Street (NAS) is transforming the heart of the Melbourne City campus, enhancing the study and learning experience for all students. The project is scheduled to be completed by 2017. 

www.rmit.edu.au/nas

Top 5 features of the NAS

1. Media precinct
2. Sky gardens
3. Hip student hangouts
4. Increased library space
5. Pop-up retail stores

Study in a location that inspires you:

- Melbourne City, Brunswick and Bundoora, Australia
- Ho Chi Minh City and Hanoi, Vietnam
- Barcelona, Spain
Melbourne City campus

124 La Trobe Street
Melbourne, Victoria 3000
47,000+ students

RMIT’s main City campus is located in the heart of Melbourne, with a wide range of programs on offer, including four research institutes. The City campus is close to:

- public transport
- accommodation
- art galleries
- shopping centres
- cafe-filled laneways
- sport stadiums
- restaurants and bars

Bundoora campus

 Plenty Road
Bundoora, Victoria 3083
7000+ students

The leafy suburb of Bundoora has large open spaces, tree-lined grounds and great sporting facilities. Core learning and teaching fields include:

- biological sciences
- medical radiations
- Chinese medicine
- nursing
- education
- automotive and aerospace engineering
- mechanical engineering

Brunswick campus

25 Dawson Street
Brunswick, Victoria 3056
2000+ students

Brunswick is a thriving creative hub that attracts Melbourne’s emerging artists, fashion designers and musicians. Fittingly, the campus is home to many of RMIT’s design-related programs, including:

- fashion design and technology
- textile technologies
- merchandising
- product development
- graphic design
Experience Life in Melbourne

The world’s most liveable city

In 2015, the Economic Intelligence Unit annual livability survey voted Melbourne as the world’s most liveable city for the fifth consecutive year. Melbourne has consistently remained one of the most popular cities for students to study and live. Our quality of living is high, our public transport is convenient and multiculturalism fuels the city with a characteristic energy.

Awf Abdul Rahman Al-khan
PhD (Biomedical Science)
“In Melbourne there are a huge number of modern shopping centres in addition to traditional markets such as the Queen Victoria Market.”

Ande Sabo
Associate Degree in Fashion and Textile Merchandising
“I love watching the New Year’s Eve fireworks from the beach in St Kilda and going to the free music festival they put on at the end of the summer.”

Jan Duefelsiek
Study Abroad
“I’m living right in the city, so my perfect day starts watching the sun rising between beautiful skyscrapers, and people bustling on their way to work.”
Accommodation

Feel at home in Melbourne

To help you settle into life in Melbourne we have Student Wellbeing Advisors on campus to provide you with housing support and advice. We also have an accommodation database you can use to search for housing near your campus.

www.rmit.edu.au/housing

The Department of Immigration and Border Protection recommends that you budget your living costs according to the following annual rates:

- You: AU$18,610
- Your partner: AU$6,515
- Your first child: AU$3,720
- Every other child: AU$2,790

You may be requested to provide evidence of these funds to receive a student visa.

More information on page 72

Cost of living

To help you understand the cost of relocating to Melbourne, we have developed a helpful student budget guideline. Prices will vary according to your lifestyle and choice of accommodation. It is more expensive to live on your own than to share with others.

**Weekly expenses**

<table>
<thead>

Scholarships

Reach your potential

If you are a high-achieving student who strives to shape your future, then RMIT’s scholarships could be for you.

RMIT offers scholarships to commencing international students across all fields and levels of study. Scholarships include financial support, rewards for academic excellence and full scholarships for research students.

Search our list of current scholarships at www.rmit.edu.au/international/scholarships.

RMIT international research scholarships

These scholarships are awarded to international students undertaking research doctoral degrees on the basis of academic excellence and research potential. The scholarship covers tuition fees, the cost of overseas student health cover (OSHC), a stipend, relocation allowance, an allowance for the cost of producing a thesis and paid sick, maternity and parental leave (within the limits of the Scholarship Guidelines).

Scholarships include:
- International Postgraduate Research Scholarship
- RMIT PhD International Scholarship
- Vice-Chancellor’s PhD Scholarship

RMIT international coursework scholarships

These scholarships are offered for all levels of study from Foundation Studies to masters degree by coursework. Scholarships are for high-achieving students and vary in value and duration. They can be based on citizenship or program of study. Scholarships include:
- International Development Scholarship for students from the Philippines, Myanmar, Laos, Cambodia or Vietnam
- Science, Engineering and Health Scholarship for Indian students
- Malaysia Australia Colombo Plan Commemoration
- International Partnership scholarships
- International Excellence Scholarship for Latin American students
- International Cost of Living Scholarship for students currently residing in Australia
- Global Leaders Scholarship for Indian students
- Malaysia Australia Colombo Plan Commemoration
- International Partnership scholarships
- International Excellence Scholarship for Latin American students

Australia Awards

These prestigious international scholarships and fellowships are funded by the Australian Government and could financially support you in your journey to become an RMIT student. The values vary but often cover full tuition fees, a stipend, Introductory Academic Program, OSHC and other expenses including supplementary academic support and travel.

RMIT has a dedicated team providing support for Australia Awards students. www.australiaawards.gov.au

External scholarships through overseas governments

RMIT also works with sponsoring organisations to provide degree and postgraduate programs to nominated students. An external organisation, such as a university or government agency, may pay your tuition fees, and in some cases provide a financial guarantee for you. RMIT has arrangements with overseas scholarship programs around the world to provide financial, academic and other support for their students through the dedicated Sponsorship Development Team. www.rmit.edu.au/international/sponsorships

Johanne Trippas  
PhD (Computer Science)

"I would recommend RMIT because there is a lot of support for students – academic and social. I was active in the Mates at RMIT program that mentors new international students, helping them adjust to studying at RMIT and living in Melbourne."
### Important Dates

Plan to arrive in Melbourne before registration so you have time to organise accommodation and become familiar with your new surrounds.

#### Higher Education

**Semester 1, 2017**
- Registration: 14 February
- Orientation: 20 – 24 February
- Classes: 27 February – 28 May
- Mid-semester break: 13 – 19 April
- Exams: 5 – 23 June
- Mid-year break: 26 June – 16 July

**Semester 2, 2017**
- Registration and enrolment: 4 July
- Orientation: 17 – 21 July
- Classes: 17 July – 15 October
- Mid-semester break: 28 August – 3 September
- Exams: 23 October – 10 November
- Graduation parade and ceremony: 13 December

#### Vocational Education (including associate degrees)

**Semester 1, 2017**
- Registration: 24 January
- Orientation: 6 – 10 February
- Classes: 6 February – 4 June
- Mid-semester break: 13 – 19 April
- Exams: 5 – 16 June
- Mid-year break: 19 June – 2 July

**Semester 2, 2017**
- Registration: 20 June
- Orientation: 17 – 21 July
- Classes: 17 July – 15 October
- Mid-semester break: 28 August – 3 September
- Exams: 30 October – 10 November
- Graduation parade and ceremony: 13 December

These dates are subject to change and do not apply to programs with early commencement. Please check your letter of offer and [www.rmit.edu.au/students/importantdates](http://www.rmit.edu.au/students/importantdates) for the most current information. You will be required to attend registration to be eligible to enrol.
Entry Requirements

To study at RMIT University, you must meet the specific entry requirements for the program you want to study. Below is a general overview of the main requirements you may be asked to meet.

**Academic requirements**

1. Visit [www.rmit.edu.au/programs](http://www.rmit.edu.au/programs) to find the program you want to study. The entry requirement will normally be listed as an Australian score.

2. Visit [www.rmit.edu.au/international/country-equivalent](http://www.rmit.edu.au/international/country-equivalent) to work out the equivalent score for your country.

**English language proficiency**

You can provide test results from the International English Language Testing System (IELTS) test or a recognised equivalent. Refer to the table below for the equivalent test requirements.

You can provide evidence that you completed an Australian or overseas qualification that was conducted in English and is recognised by RMIT University. For a full list refer to: [www.rmit.edu.au/international/english-equivalent](http://www.rmit.edu.au/international/english-equivalent).

Or

Study an English language program at RMIT English Worldwide (REW). Further information is available on page 65.

</tr>
</tbody>
</table>

This is intended as a guide only as English proficiency requirements vary for every program. Some requirements are up to IELTS 7.5.

**Extra requirements**

For some programs you also need to complete selection tasks as part of your application. These may include:

- submitting a portfolio
- completing a supplementary information form or pre-selection kit
- attending an interview

**Minimum age**

You must be at least 16 years old by the commencement date of the program in which you want to enrol.

For VCE programs, you must be at least 17 years old at the time of commencement of the program (including mid-year entry).
Art, Design and Architecture

Design that gets you discovered

RMIT is internationally recognised for its architecture, art and design education, with graduates working around the world. Choose from our career-oriented artistic expression and practical programs—from furniture design and textile design to games and graphic design.

“Studying at RMIT constantly challenges you to explore outside of your comfort zone and investigate new media, techniques and findings. The program was a great opportunity for me to network and join a community of talented artists.”

Tull Suwannakit
Master of Fine Art (Coursework), Graduate

— Architecture and urban design
— Design, innovation and technology
— Fashion and textiles
— Fine and visual art
— Games, animation and interactive media
— Graphic and communication design
— Industrial, furniture and product design
— Interior design
— Landscape architecture
— Merchandising
— Photography

Award-winning alumni

RMIT alumni won three out of four major awards at 2015 Victorian Craft Award. More than 30 students and alumni were also listed as finalists, with eight making the director’s short list.

40+ programs

Left to right: ‘Unexpected Linkage’ by Sun-Woong Bang; ‘Sometimes Yes’ by Kate Jones; ‘Wishing Fish’ by Natalia Mioz-Zieleńska.
Building, Construction and Planning

Shaping future cities

Shaping the future cities and regions of the world is more than simply creating buildings and roads.

RMIT prepares you to make a profound impact on the built environment and meet the needs of a constantly evolving field. Our programs maintain strong connections to industry and government and have a global reach through international study tours and student exchange.

Direct links with industry

RMIT has more than 135 industry connections for construction management, project management and property and valuation students through the Employer of Choice program.

Partners of the Employer of Choice program include:
- Australian Property Institute
- Brookfield Multiplex
- EY
- Jones Lang LaSalle
- Knight Frank
- KPMG
- Mirvac
- Stockland

RMIT teaches us very practical things; we can look into real cases and do some hands-on practices. I believe this program is actually preparing me for my future career.”

Passionate staff

Dr Joe Hurley
Program Manager, Bachelor of Urban and Regional Planning (Honours)
Member – RMIT Centre for Urban Research

“I am passionate about cities and urban communities. RMIT has its primary campus at the heart of my favourite city, Melbourne. I work at RMIT as it is uniquely placed to engage in urban issues both locally and globally, and is a world leader in urban research.”

30+ programs
Business

Creating entrepreneurs of the future

RMIT’s business programs are practical, responsive to industry trends and anticipate employer needs.

As an RMIT business student you are encouraged to unlock your entrepreneurial spirit and forge connections with industry and the community to learn how to solve problems through creative thinking and collaboration.

— Accounting
— Economics and finance
— Engineering management
— Entrepreneurship
— Information systems
— International business
— Management, business and administration
— Marketing and advertising
— Merchandising
— Statistics and analytics
— Supply chain and logistics

I loved that my degree was extremely hands-on with real case studies and the opportunity to work with clients. I also gained valuable experience volunteering through SLAMs and as a program assistant for Open Day.”

Elena Sootoo
Bachelor of Business (Marketing)

RMIT’s MBA is ranked in the top 10 Australian MBA programs

CEO Magazine (2015)

Best Educational Course Provider in Logistics

2015 Asian Freight, Logistics and Supply Chain Awards

RMIT’s College of Business is Australia’s largest business faculty

Students helping students achieve

200+ mentors help over 3500 students each year via Student Learning Advisor Mentors (SLAMs).

www.rmit.edu.au/bus/slams

Job-ready graduates

Our degree information systems graduates are twice as likely to be employed full-time than graduates from other Australian universities.

Industry would rather employ RMIT sales and marketing graduates than those from other Australian universities.

Australian Graduate Survey 2014: International onshore outcomes in full-time employment

Award-winning students

RMIT students have been the national winners of the L’Oreal Brandstorm competition four years in a row, and have won the national final seven times since 2006.
Communication and Digital Media

Breakthrough communication in a digital world

RMIT’s association with industry has resulted in the delivery of unique and innovative programs in communications and digital media. RMIT students move fluently between the classroom, the studio and the workplace, developing real-life skills to adapt to emerging specialisations in an increasingly connected world.

I chose RMIT due to its reputation and ranking as a top university in media and communication. RMIT is helping me gain the skills to work towards my dream job as a producer or creative art director, where I will oversee both the macro and the micro levels in a business.”

Tor Borre Gaasland
Master of Communication

— Communication and writing
— Games, animation and interactive media
— Marketing and advertising
— Music and audiovisual
— Screen and media

40+ programs

Number one in Australia and number five in the world for the Bachelor of Communication (Advertising)
YoungGuns 2010

Outstanding facilities
— RMIT’s Games and Experimental Entertainment Laboratory (GEElab) was established in 2011 and is the latest addition to a significant research and development investment in games.
— Dedicated postgraduate studios for students studying towards the Master of Animation, Games and Interactivity as well as the Master of Communication Design.
— Brand new television, radio and sound and music studios and facilities.

A hands-on student experience
— The Professional Practice (Global Practice) subject in the Master of Advertising has an embedded study tour, giving students from design, communication, public relation and advertising the opportunity to work together.
— RMIT’s Master of Media students get the opportunity to join international field trips where they work on projects for global clients. In 2015, students went to the Philippines and Spain, and in 2016 will go to India and Kenya.

Quality partnerships
We have a range of exciting partners, including:
— Melbourne International Film Festival
— Emerging Writers’ Festival
— Melbourne International Animation Festival
— St Kilda Film Festival
— Melbourne Music Week
Computing, Games and Information Technology

Meeting today’s digital challenges

RMIT’s computing, games and information technology programs prepare you to meet today’s digital challenges and to imagine how people and technology will interact in the future. You won’t just learn theory – you’ll gain practical experience as software developers, programmers and information technology professionals on industry-relevant projects.

Key research areas:
- big data and data analytics
- service and cloud computing
- web search and information retrieval
- intelligent systems
- optimisation and machine learning
- smart technology and sensor networks
- games and multimedia

Top 100 worldwide
Ranked in the top 100 worldwide for Computer Science and Information Systems.

Education and Teaching

Sharing knowledge with future generations

With more than 50 years of experience, RMIT has an established reputation for providing educational and vocational leadership in creating knowledge for the future.

Our programs and courses will equip you to confidently create a fulfilling career within the expanding education industry.

Teacher training includes practical, hands-on experience teaching early childhood, primary and secondary students in government and independent schools.

Ranking in the Top 200 Worldwide for Education

QS World University Rankings by Subject 2015

Almost 80% of students have a previous qualification in another area of study, which helps bring different knowledge to the learning environment.

The teaching staff are one of the most highly rated points of the program

The Bundoora location is a strong benefit to students, who indicated that the atmosphere provides a friendly and relaxed environment.

Through my studies at RMIT I have been well equipped with theoretical and practical skills as well as solid professional experience to guide my future teaching career.”

Teresa Tran

Graduate Diploma in Education (Early Childhood)

— Career education
— Health and physical education
— Teacher education
— Training and assessment

Engineering

Turning possibilities into solutions

Engineering at RMIT strikes the perfect balance between specialised degrees and transferable skills.

Project work is a key aspect of RMIT’s engineering programs, bridging the gap between theory and practice. You will gain discipline-specific knowledge from the beginning of your studies, equipping you to start building your global career.

“During my studies I’ve gained confidence, patience, and learned how to be more organised. My degree encourages teamwork, which will help prepare me for the workforce.”

Sharina Bandaranayake
Bachelor of Engineering (Chemical Engineering) (Honours)

Double the value
RMIT offers more than 20 double degree programs with engineering, allowing students to increase their skills and employment opportunities.

Gain access to award-winning facilities
RMIT’s Advanced Manufacturing Precinct was awarded the International Education Award at the 2015 Victorian Manufacturing Hall of Fame Awards, the only Australian university honoured in the awards.

Industry connected
Most RMIT engineering degrees are accredited by Engineers Australia.
Environment and Sustainability

Embrace a sustainable future

Tackling environmental issues requires a multidisciplinary approach. Many of our environment and planning programs include hands-on experience through field studies and excursions, conducted in association with industry, government and environmental agencies.

Whether it’s assisting communities with environmental management or protecting the biodiversity of marine life in our coastal areas, you’ll be able to get professional experience on real projects across the globe.

Sustainable Urban Precincts Program

In 2014, RMIT launched a $98 million Sustainable Urban Precincts Program across all the Melbourne campuses to reduce electricity use over eight years by an estimated 239 million kilowatt hours, leading to a 30,000-tonne reduction in greenhouse gas emissions.

As part of the program, $4.8 million in funding will support teaching and research in sustainability, including 10 PhD scholarships.

I’ve had the opportunity to spend almost two weeks at the Australian Museum’s Lizard Island Research Station on the Great Barrier Reef. It was an amazing experience in such a beautiful place, offering an opportunity to study tropical coral reef ecology.”

Timothy Coggan
Bachelor of Environmental Science

WATCH

What can you do with a degree in environment?

30+ programs

Practical, hands-on field trips

Final-year environment students can take a two-week intensive field research project in Vietnam where they investigate urban development and provide sustainability recommendations to local non-profit organisations and government agencies.
Health and Medical Sciences

Hands-on, purpose-driven programs

RMIT’s health and medical sciences programs will help you discover how best to help others. Our dedicated campus immerses you in a professional community.

Whether you’re learning in anatomy labs, nursing wards, nuclear medicine workstations or on sports fields, our equipment and facilities are purpose built for your study requirements, freshly refurbished to international standards and readily accessible without having to travel off campus.

“I am training to become a radiation therapist. I chose this career as I wanted a job that was fulfilling and encompassed my love for science. RMIT has many industrial partners in my field of study and the close collaboration greatly enhances the program.”

Sheng An (Andrew) Lim
Bachelor of Biomedical Science (Honours)

Purpose-built facilities

— The Health Sciences teaching clinic provides students with practical learning experience while they study Chinese medicine, chiropractic, osteopathy and psychology.
— RMIT’s Bundoora campus includes the award-winning bioscience building, which houses the latest digital pathology and haematology laboratories, Nursing 3G SIM MAN and Virtual Environment Radiotherapy Training (VERT).

Hands-on learning

— RMIT provides practical placements for most health and medical sciences programs.
— Students learn to work like competent and confident professionals before they graduate and enter the workforce.

World-class research

RMIT’s research in health and medical sciences focuses on providing practical solutions to global health issues.

We perform well above world standard in Clinical Sciences, Medical Physiology, and Pharmacology and Pharmaceutical Sciences.

Excellence in Research for Australia 2015
International and Community Services

Empowering individuals to contribute to society

RMIT’s passionate staff, pathway opportunities and proven international research will help you to thrive as a global practitioner. Our programs offer hands-on, practical learning including work placements, field education and internships.

Learn to interpret and influence society with a range of programs addressing emerging issues that affect our local and global communities in a time of rapid social transformation.

The Social Work Alliance Project (SWAP)
Join SWAP – a student group that aims to increase the sense of community within the discipline of social work at RMIT.

Impressive graduate outcomes
More than 70% of social work graduates in Australia were in full-time work within four months of graduating.

Graduate Careers Australia, December 2014

NAATI accredited
All RMIT translating and interpreting programs are approved by the National Accreditation Authority for Translators and Interpreters Ltd (NAATI), and graduates are eligible for accreditation as a translator or interpreter by NAATI.

In the Advanced Diploma of Translating, you could learn to translate one of these languages:

- Arabic
- Chinese
- Japanese
- Korean
- Turkish
- Vietnamese

Yamam Abuzinadah
PhD (Global, Urban and Social Studies)

“I am researching in the field of social work – examining the literacy around health and wellbeing, and mental health. RMIT has given me the opportunity to work with an excellent team of supervisors. “RMIT understands what each individual needs and provides study support, counselling, health and wellbeing officers, and a comprehensive security system which makes me feel safe.”
Preparing you for a successful career
RMIT graduates have held roles as barristers, magistrates, Queen’s Counsel, judges in the County Court and Court of Appeal, a Supreme Court Crown Prosecutor, Chair of Legal Aid Victoria, and Deputy Premier of the state of Victoria.

RMIT’s Centre for Innovative Justice undertakes research to identify effective alternative approaches to improve the provision of criminal justice, civil dispute resolution and legal services.

www.rmit.edu.au/innovativejustice

The Bridge of Hope Innocence Initiative is an exciting collaboration between RMIT and the Bridge of Hope, a not-for-profit organisation that runs programs designed to break the cycle of entrenched disadvantage that often leads to offending behaviour.

www.rmit.edu.au/justice/innocence-initiative

Justice and Legal

Question, interpret and understand the issues
RMIT’s justice and legal programs and courses are developed in consultation with industry and are highly regarded for their practical application and work experience components.

Students will learn about the justice and legal systems from the perspectives of business, policy, politics, sociology and criminology. With industry contacts and partnerships built over 30 years, RMIT can prepare you to practise, enforce and reform the law across a range of justice and legal professions.

Sharimila Moorthy
Bachelor of Arts
(Criminal Justice Administration)

“The Bachelor of Arts (Criminal Justice Administration) is one of the best programs. I have learnt so many things. Placement is a core subject, which is really useful to know how the job is going to be.”

Science

A world of possibility for enquiring minds

Science at RMIT provides practical solutions to real-life problems. There is a strong focus on lab work, field trips and industry experience.

You could use statistics to analyse elite sports teams, develop a new sunscreen, or investigate sustainability and urban development projects in Vietnam. Modern laboratories and access to a broad range of sophisticated equipment enables advanced research work and skills training in line with industry best practice and research.

I would recommend the Diploma of Laboratory Technology program to others because it has different courses that enhance the theory and the technical abilities needed to work at a laboratory or research centre.

“The knowledge I have acquired through the program has helped me to expand my skills and seek new ways to solve and approach different health and food quality problems.”

Laura Arias
Diploma of Laboratory Technology (Biotechnology)
Research and Innovation

Transform the future

Meeting the challenges of a research degree is the ultimate way to establish yourself as an expert in your field and showcase your ability for critical thinking and long-term project management.

As a researcher at RMIT, you can:
— develop your own topic and pursue your own theories
— work independently while interacting with experts
— have your thesis or project critically reviewed
— receive government and industry grants
— participate in the commercialisation process

Making a difference

RMIT is part of an international research community seeking innovative solutions to address emerging global problems.

RMIT University also participates in cooperative research centres and other national centres of excellence, providing you with the ultimate resources to make a valuable contribution to your field.

www.rmit.edu.au/research

RMIT research is focused in 15 broad disciplines

Biological sciences

Biological science researchers and specialists tackle issues on a local and international scale, working in biomedical, plant and environmental sciences, with additional activity across the wider breadth of biological sciences.

Built environment and design

Research in built environment and design spans theoretical, applied and practice-based disciplines in property and construction management, urbanisation, planning, architecture and fashion design, textile design and curatorial practice.

Chemical sciences

RMIT’s multidisciplinary research approach in chemical sciences produces high-quality outcomes in both fundamental and applied research. Chemistry researchers at RMIT are engaged in multidisciplinary and innovative projects in physics, biotechnology, food, and environmental sciences.

Creative arts and writing

Creative arts and writing research incorporates cutting-edge, critical and practice-led research in contemporary art, creative practice and practice-based art research, gaming, screenwriting, screen studies, nonfiction, creative writing and a range of other interdisciplinary fields.

Economics and finance

Dynamic and innovative researchers produce world-class research in key areas of economics and finance, including behavioural economics, development economics, international trade, housing and urban economics, and applied macro- and micro-economics.

Education

Education research spans the spectrum from early childhood to higher education and from pedagogy to policy. Researchers in education work closely with colleagues in other disciplines to explore the ways in which education, training and work impact the world around us.

Engineering

Engineering at RMIT is internationally renowned for its industry-relevant, high-impact research and globally competitive graduates. As a higher degree student, you will have the unique opportunity to select between industry-supported applied research delivering innovative products and processes and fundamental research leading to ground-breaking new knowledge.

The FabPod project attempts to address the challenge of designing and prototyping a meeting room enclosure to sit within an open-plan work environment in the Design Hub at RMIT.
While undertaking my masters degree I read hundreds of research papers and was captured by the brilliant ideas of my current supervisor. That’s when I planned my PhD future and realised RMIT would definitely be my PhD destination.

“All I can say about my PhD experience is that it is great. All my supervisors are great experts and are very willing to help. RMIT researchers and lecturers are distinctly knowledgeable and experienced in their particular field.”

RMIT highlights the importance of research. But research is not just limited to theoretical work; it gives an emphasis to practical applications of research.

“My work is related to developing an intelligent system that can evaluate urban planning policy decisions. We are evaluating Plan Melbourne, which outlines Melbourne’s growth to the year 2050. I feel that I am working on a project that can make a real impact on people’s lives.”

Ngoc Hong Phuong Ho
PhD (Built Environment)

Bhagya Wickramasinghe
PhD (Computer Science)

Environmental sciences
With expertise in key and emerging areas, environmental science researchers are working with communities, both in Australia and globally, to identify and implement strategies to benefit communities and improve the sustainability of the environment.

Information and computing sciences
RMIT’s research strengths in information and computing science include big data and data analytics, service and cloud computing, web search and information retrieval, spatial databases and navigation systems, intelligent systems, optimisation and machine learning, smart technology and sensor networks, and games and multimedia.

Language communication and culture
RMIT’s language, communication and culture research is internationally recognised with a focus on the interdisciplinary fields of digital ethnography, journalism, and critical, social and political communication.

Mathematical sciences
Research in mathematical sciences aims to generate original knowledge while addressing local and global problems, with research strengths in information security and network science, continuous and combinatorial optimisation, dynamical systems, physical systems modelling and epidemiological modelling.

Medical and health sciences
In the most recent Excellence in Research for Australia evaluation, our research in medical and health sciences was rated at above world standard. RMIT is strongly committed to an interdisciplinary, collegial approach to scientific investigation that brings clinical and basic researchers together to produce findings that inform clinical teaching and advance the treatment of patients.

Physical sciences
Researchers in physical sciences work closely with colleagues in other disciplines, and provide expertise in theoretical and computational modelling and characterisation (electron microscopy and light/X-ray/neutron scattering) to areas such as physical chemistry, biosciences and electronic, aerospace and materials engineering.

Social sciences
Social science research can transform lives and create lasting social change. At RMIT, you’ll work with and learn from passionate, engaged members of society who work towards a fairer world for all. Researchers in social science engage with communities and respond to the needs of our time.

Learn more about research degrees, including how to apply, identifying a supervisor and the various scholarships on offer at: www.rmit.edu.au/researchprograms.
Study Abroad

Your passport to the future

Join RMIT for one or two semesters

Connected Pathways

Choose your own path

Pathways provide opportunities for you to complete one program and then progress into a higher qualification. It’s a great way of getting into the program you want, particularly if you don’t meet the entry requirements straightaway.

RMIT offers different levels of study and has a network of partners around the world. This means you can explore more than one way of getting to the qualification you want.

English language programs

Gain invaluable language skills

RMIT English Worldwide (REW) delivers English language programs to help international students meet the English language requirements for academic study at RMIT. You might prefer this option if you already meet the academic requirements for your desired program but need to improve your level of English.

REW programs support and prepare students and professionals to successfully use English in study and professional settings.

The 2017 tuition fees are AU$410 per week plus an enrolment fee of AU$240.

English language testing and preparation

REW is an official International English Language Testing System (IELTS) test centre and IELTS preparation course provider. IELTS preparation courses are the perfect way to prepare for study in Australia. All programs are designed to give you the skills and confidence required to take the IELTS test.

REW also offers the Pearson Test of English (PTE Academic), a computer-based English test for international study and migration.

https://rmitenglishworldwide.com/rmit-english-worldwide-melbourne

Academic English

English for Academic Purposes (EAP) helps you to meet the English language requirements for further study at RMIT. EAP will assist you to develop key skills in critical thinking, independent learning and active participation in the classroom.

If you successfully complete an appropriate level of EAP, you will be eligible for entry into further study at RMIT without the requirement to sit an IELTS or TOEFL Academic or other English language test.

Classes are held from Monday to Friday with four-hour shifts per day, adding up to a total of 20 classroom hours per week.

Each study level takes 10 weeks full-time to complete and is delivered over two five-week modules.

Enrolment is held on the Thursday before classes start. You must arrive in time for your enrolment.

I came to Australia with serious difficulties communicating in many situations. But, after I started my classes, my life started to change. Nowadays I think I’m 110% English! Sometimes, my friends ask me to make phone calls for them because I have better skills in listening than they do. Today in my university studies, I can see how important REW was to my success.

Douglas Henrique Garcia
Former REW student
Foundation Studies

Strong foundations for success

Foundation Studies prepares high-school students for university study. It is recognised for entry into degree and diploma programs at RMIT and is an alternative to taking the Australian Year 12.

As an RMIT Foundation Studies student, you will be part of the university from day one, learning from university staff and studying at RMIT’s vibrant City campus. You will have access to libraries, laboratories, studios, IT equipment, student services and clubs – everything RMIT has to offer.

Foundation Studies has three tailored streams for you to choose from:
— Art, Design and Architecture
— Business
— Science, Engineering and Health

We also offer a General program that provides freedom to choose a range of courses from any of the streams.

Learn more about the program structure and electives: www.rmit.edu.au/programs/fs016.

You should take Foundation Studies if:
— You have completed a Year 11 equivalent and need some extra preparation before beginning university.
— You have completed Year 12 but cannot gain direct university entry.
— You have not done as well as you had hoped in previous studies and need an alternative pathway to university.
— Your preferred program specifies a prerequisite that you have not completed, such as a specific subject or portfolio.

Foundation Studies provides you with a pathway to further study at RMIT University.

Foundation Studies scholarships
RMIT awards a number of scholarships to Foundation Studies students each year. These scholarships are awarded on the basis of academic merit and personal achievement and are open to students from all countries.
www.rmit.edu.au/international/scholarships

High-quality teaching and learning
Foundation Studies teachers are experienced in working with international students and understand the needs of young people studying in another country, often away from family and friends.

Small class sizes combined with the latest technology
Foundation Studies classes are small with an average of 20 to 25 students in each class. Classrooms are equipped with the latest audio visual technology, as well as science labs, design studios and workshops.

End-to-end student support
Specialised staff will be your point of contact from your arrival until you complete your program. They will provide you with guidance and advice, and connect you with other university services, including Foundation Studies Language Support.

Exciting social activities
Several celebrations and events are held throughout the year, including orientation activities, our annual Spring party, a student art and design exhibition, a ski trip and an end of year lunch.

Making Connections mentoring program
The Making Connections mentoring program is exclusive to new international students studying in Foundation Studies. It is a free social program that aims to support Foundation Studies students to make friends and adjust to their new environment and culture.
Entry requirements
You must have successfully completed the equivalent of an Australian Year 11, with a D average or better. Find out if your prior studies meet this requirement at: www.rmit.edu.au/international/country-equivalent.
You must also provide evidence of English language proficiency: IELTS (Academic) with a minimum overall band of 5.5 (no individual band below 5.0).
Refer to page 15 for alternative ways to prove your English language proficiency.

Start dates
20 February 2017
19 June 2017

Orientation begins one week prior to the start date and is designed to make moving into your new environment a lot easier. Make sure to arrive in time to be part of all the scheduled activities.

These dates are subject to change. Please check your letter of offer for the most current information.

I would recommend the Foundation Studies course because it gives students an idea of what the bachelor degree will be like. There’s not a lot of stress as it eases students into the idea and prepares the students for their chosen future degrees.”
Vocational education

Vocational education is practically orientated, ensuring excellent job prospects on completion. Vocational qualifications include advanced diplomas, diplomas and certificates, and can provide an excellent pathway to university degrees. Some programs provide up to two years’ credit towards an RMIT degree.

www.rmit.edu.au/study-with-us/levels-of-study/vocational-study/

Popular vocational education pathways:

- Diploma of Nursing (Enrolled – Division 2 Nursing) ➔ Bachelor of Nursing
- Diploma of Building and Construction (Building) ➔ Bachelor of Applied Science (Construction Management) (Honours)
  ➔ Bachelor of Applied Science (Project Management) (Honours)
  ➔ Bachelor of Applied Science (Property and Valuation)
- Advanced Diploma of Screen and Media – Screen ➔ Bachelor of Communication (Media)
  ➔ Bachelor of Design (Animation and Interactive Media)
  ➔ Bachelor of Design (Digital Media)
- Advanced Diploma of Accounting ➔ Bachelor of Business (Accountancy)
  ➔ Bachelor of Business (Economics and Finance)
  ➔ Bachelor of Business (Economics and Finance) (Applied)
  ➔ Bachelor of Business (Entrepreneurship)
  ➔ Bachelor of Business (Human Resource Management)
  ➔ Bachelor of Business (Information Systems)
  ➔ Bachelor of Business (Information Systems) (Applied)
  ➔ Bachelor of Business (International Business)
  ➔ Bachelor of Business (International Business) (Applied)
  ➔ Bachelor of Business (Logistics and Supply Chain Management)
  ➔ Bachelor of Business (Logistics and Supply Chain Management) (Applied)
  ➔ Bachelor of Business (Management)
  ➔ Bachelor of Business (Marketing)
  ➔ Bachelor of Business (Marketing) (Applied)
  ➔ Bachelor of Business (Professional Accountancy)

Progression from pathways into degree programs may be subject to achieving certain academic results. Check the RMIT website for full information about pathway requirements for your desired program.

www.rmit.edu.au/programs
RMIT offers 13 different associate degrees, providing pathways and credit towards over 40 bachelor and honours degree programs.

Popular associate degree pathways:

- Associate Degree in Business
  - Bachelor of Business (Accountancy)
  - Bachelor of Business (Entrepreneurship)
  - Bachelor of Business (Human Resource Management)
  - Bachelor of Business (Information Systems)
  - Bachelor of Business (International Business)
  - Bachelor of Business (Logistics and Supply Chain Management)
  - Bachelor of Business (Management)
  - Bachelor of Business (Marketing)

- Associate Degree in Engineering Technology
  - Bachelor of Engineering (Advanced Manufacturing and Mechatronics) (Honours)

Progression from pathways into degree programs may be subject to achieving certain academic results. Check the RMIT website for full information about pathway requirements for your desired program.

www.rmit.edu.au/programs

Associate degrees

The two-year associate degree aims to provide a strong understanding of a selected study area. Students who complete an associate degree can gain entry into a related degree and receive credit for studies already completed.

Guneet Khurana
Associate Degree in Fashion and Textile Merchandising

After studying here, I can see me doing well in the industry because of RMIT’s industry engagement programs. Studying here pushes up your knowledge to the next level.”

Find out more about associate degrees at RMIT.
Collaborative Articulation Programs

RMIT has Collaborative Articulation Programs (CAP) with six highly regarded institutions in China. These unique programs provide a formal pathway for students who want to complete part of a degree overseas before transferring to RMIT. You will graduate with two awards – one from each institution.

Ting Jun Ye (Tanzie)
Bachelor of Education (Early Childhood Education)
Jointly enrolled with Central China Normal University

“Attaining two qualifications in four years – both from awesome universities – is the most efficient thing ever! It has also helped me improve my English and expanded my employment opportunities.”
How to Apply

1. Find the program that you want to study
   www.rmit.edu.au/programs

2. Check that you meet the entry requirements
   Consider English language and academic requirements, prerequisites and selection tasks.

3. Collect required documents:
   - certified copies of academic transcripts from all qualifications and certified copies of all graduation certificates (in both original language and in English)
   - evidence of English language proficiency
   You will also need any supporting documents listed in your program’s entry requirements.

4. Submit your application
   http://iapply.rmit.edu.au
   We suggest you apply at least three months before your program starts so that you have enough time to obtain your student visa. Some programs have quotas and may close for admission without notice.

5. Receive a letter of offer
   If your application is successful, expect to receive an offer two to four weeks after you apply.

6. Accept your offer
   Log into http://iapply.rmit.edu.au to complete the Offer Acceptance Form and pay your deposit.

7. Receive your electronic Confirmation of Enrolment (eCoE)
   Expect to receive this three days after your payment is confirmed.

8. Check the requirements for your visa application
   All applicants need to meet the Australian Government’s Genuine Temporary Entrant criteria.

9. After your visa is granted, you can prepare to travel
   Make sure you arrive in time for registration and the international student briefing session. Check page 14 for important dates.

10. Arrive in Melbourne
    Get advice on setting up in Melbourne: www.rmit.edu.au/students/gettingstarted.
    Make sure you follow all visa conditions or your visa may be cancelled. Read more about your obligations on page 72.

Need help?
   - Contact our student advisors at isu@rmit.edu.au.
   - Contact our Arabic speaking advisor at arabic@rmit.edu.au.
   - Find one of RMIT’s appointed agents: www.international.rmit.edu.au/info/agentlist.
Further Information

Australian Government regulations for student visas

Students are granted a student visa, subject to a number of conditions. Students must:
- maintain enrolment in a CRICOS-registered program
- complete their program within the expected program duration, based on a full-time load unless extenuating circumstances exist
- maintain visa eligibility such as education level, academic progress and attendance
- keep RMIT notified of their address, and any change of address within seven days
- maintain overseas student health cover for the full duration of their student visa
- have the financial ability to meet all costs in Australia (including travel, tuition and living expenses)
- ensure any family members of school age attend school in Australia
- abide by student visa work limitations
- complete at least six months of study in their principal program (the highest program in a package) unless permission to transfer is granted by the principal provider.

Enrolment variation and your student visa

Enrolment variation refers to any change to your enrolment status, including deferring your program, applying for a Leave of Absence or cancelling enrolment. RMIT is legally required to inform the Department of Immigration and Border Protection (DIBP) of enrolment variations and changes. It is important that you understand how changing your enrolment can impact the validity of your student visa.

Students under 18

If you are under the age of 18 at the time of applying for your visa, you must have accommodation and welfare arrangements in place that have been approved by either DIBP or RMIT.

[www.rmit.edu.au/international/under18](http://www.rmit.edu.au/international/under18)

Students with families

RMIT welcomes students being accompanied by their families. If you wish to bring your spouse or children to Australia, you are responsible for supporting them financially (including the payment of annual school fees). Full-time education is compulsory for all children in Victoria from the age of five to 15 years.

For further information, please refer to your nearest Australian diplomatic post, or the Department of Immigration and Border Protection.

More information on page 10.

Important fee information

- The program and fees information applies to students commencing programs between 1 January and 31 December of the selected academic year.
- All fees are quoted in Australian dollars (AUS) and apply to RMIT University’s Australian campuses only.
- RMIT’s application fee is non-refundable, but will be credited to your tuition fee deposit once you accept your offer and commence your program.
- For details on additional costs, please visit [www.rmit.edu.au/programs/fees/other](http://www.rmit.edu.au/programs/fees/other).
- Fees are held constant for each calendar year and RMIT may increase the fees by an amount that will not exceed 7.5% each year.
- Fee increases are applied at the beginning of each calendar year; therefore commencing mid-year students will find that the total cost of their program will be slightly higher than if they had commenced in February.
- Fees are invoiced on a study period basis according to the enrolled load for that particular study period except for the following two sectors:
  - English Language is charged at a weekly fee
  - Victorian Certificate of Education is charged a flat semester fee

Australian sanctions laws

RMIT University is subject to United Nations (UN) and Australian sanctions laws that may affect your eligibility to enrol in particular programs.

Applicants from sanctioned countries are encouraged to apply early and allow additional time for their application to be processed.

Ranked number 21 in the top 50 universities under 50 years old
