

# Physics 2: Further Physics for Science and Engineering Students

**Prepare for your studies  
with this free workshop,  
which follows on from the  
Physics 1 program.**

Topics covered are:

- 2 & 3 dimensional force systems
- centre of gravity & centroids
- moment of inertia
- equilibrium & free body diagrams
- moment of a force & couples
- projectile motion
- constant & non-constant acceleration
- friction
- angular motion.

You should attend if you:

- are a science and engineering student
- are returning to study and want to enhance your knowledge and skills in physics
- are moving from Vocational Education into Higher Education.

## When

DAY	DATE	TIME
Monday–Friday	22 February–4 March	10am–3pm

## Where

City campus (check website for details)

## Enquiries

Study and Learning Centre  
Tel. +61 3 9925 3600

## Bookings
