Making Intellectual Property Work for You and Your Business

Did you know that Intellectual Property (IP) is fast becoming one of today's most important business issues?

Increasingly, business requires accurate, concise and relevant information on IP - importantly customers may demand it!

Speaker: Karen Sinclair - Principal Patent & Trade Mark Attorney at Watermark, has broad experience in all fields of intellectual property and has worked for a number of years creating patents. She is actively involved in industry associations and takes a strong interest in the licensing of IP.

Networking: Make the most of this opportunity and bring your products, your portfolio and your business cards. If you have a product for sale we are able to set up a display table.

This is an ideal opportunity to meet with your peers, to network, to listen to a guest speaker and have a good time.

Light refreshments will be served.

RSVP Tuesday 19 October 2004 to Leah or Julia on (03) 9925 2933 or email helen.dougiakis@rmit.edu.au
