Post Apprenticeship
Certificate IV in Printing and Graphic Arts (Printing) C4176

This is an opportunity for all printers to upgrade their qualifications.

Certificate IV in Printing and Graphic Arts (Printing) is a post-apprenticeship program which provides the further skills and knowledge required for lead printers and for those looking for advancement. The following Competencies are required to upgrade your certificate III.

Core units
- Troubleshoot and optimise materials and machinery
- Use on-press monitoring of print quality
- Use on-press print control devices
- Set up and monitor in-line printing operations

Specialist Streams
- Set up for specialist lithographic printing
- Produce specialist lithographic printed products
- Set up for specialist flexographic printing
- Produce specialist flexographic printed products
- Set up for specialist relief printing
- Produce specialist relief printed products

Elective unit
- Output complex images direct to plate

These represent a nominal 460 hours of study which will be delivered part time, on campus and where possible in the workplace. Please note that the Cert. III in Printing and Graphic Arts (Printing) is a pre-requisite for this course.

The following competencies:
- Use on-press monitoring of print quality
- Use on-press print control devices

Will be offered this year commencing on 3rd July 2006.
