

Physics 1: Introductory Physics for Science and Engineering Students

Prepare for your studies with this free workshop, which includes direct teaching and self-paced study.

It covers VCE-level topics including measurement, vectors, motion, forces, momentum, energy and electricity.

You should attend if you:

- are a science and engineering student
- did **not** study VCE physics
- are returning to study and want to enhance your knowledge and skills in physics
- are moving from Vocational Education into Higher Education.

When

DAY	DATE	TIME
Monday–Friday	1–5 February	10am–3pm

Where

City campus (check website for details)
