An exciting opportunity is available to you as an RMIT undergraduate to launch yourself as an internationally focused, inter-culturally capable and globally connected professional. Experience life in one of the fastest growing cities on earth – Ho Chi Minh City, and undertake a professional internship in one of the world’s most globalised cities – Singapore. Your Year in Asia will help you identify the career challenges you seek, align these with what you hope to achieve in your future career, and enable you to embrace opportunities.

**HO CHI MINH CITY**

Vietnam is a bold, dynamic canvas on which a vibrant image is rapidly emerging; an image that is unique in the world and full of contradictions and surprises. This vision of change is reflected in every facet of the nation, but Ho Chi Minh City is at the center. Ho Chi Minh City is a fascinating blend of the modern and the traditional, making it more a ‘place to be’ than a ‘place to see’. Although attractions like Reunification Palace and the War Remnants Museum are well worth a look it is the experience of sitting and chatting with the locals that bring colour to the city. Get on the back of a motorbike taxi just for the sake of being in amongst it all, or just relax and watch Vietnam change, right before your eyes – those are the moments that you will treasure when your overseas study experience is just a memory.

**SINGAPORE**

Singapore retains its status as one of the world’s original ‘global cities,’ by virtue of its excellent education system, rapid uptake of technological innovation, ongoing economic diversification, and free trade agenda. Singapore is a global hub for transport, logistics and finance.
Program features

» This comprehensive program is designed to accelerate your engagement with Asia
» Your studies at RMIT Vietnam will align with your program in Melbourne
» You will experience life in one of the fastest growing cities on earth – Ho Chi Minh City

Cost

As an exchange student, you will continue your enrolment at RMIT Melbourne, and pay HECS or fees as you normally do.

Your accommodation in Vietnam will cost approximately US$350 per month. The program fee is $3200 and includes:
» Singapore accommodation
» Internship placement
» Visa processing

Ho Chi Minh City Campus

Our campus in Ho Chi Minh City is a custom-built academic facility with multimedia technologies in every classroom, air-conditioning in every indoor space and WIFI available wherever you go, so you can concentrate on what matters – your learning. Your study experience is supported by a state-of-the-art library and learning commons; a powerful and extensive online database collection; and high-end computer laboratories; allowing you to get the job done, whatever it may be.

Staff expertise

The lecturers at RMIT Vietnam bring a wealth of expertise and experience from 25 countries around the globe. This means you will hear and experience a wide range of highly considered global perspectives. Like you, many of our academics chose to come to RMIT Vietnam to experience something unique – the opportunity to build networks, knowledge and expertise at a truly international university in one of the fastest growing economies in today’s global marketplace.

Academic Internship Council (AIC)

RMIT has partnered with AIC who offer a well-established model of placing students and finding the best fit for both the student and the internship sponsor. As well as preparing your visa paperwork for Singapore, the AIC internship process includes:
» Individual career assessment meetings and pre-departure orientation
» Placement in full-time internship via personalised process
» Visa services
» On-site orientation to the city, program, and internship
» Housing in student residences
» Program management and full-time emergency support
» Workshops or materials on topics such as interviewing skills and city-specific industry area networking
» Coaching and troubleshooting during the placement
» Professional development components such as mid-term networking symposium
» Cultural exploration activities.
