Post Apprenticeship
Certificate IV in Printing and Graphic Arts (Graphic Pre-press) C4174

The International Centre of Graphic Technology is offering the Certificate IV in Printing and Graphic Arts (Graphic Pre-press) as a part time, upskilling and re-training opportunity for existing employees or those wishing to re-enter the Industry.

This provides vocational training suitable for apprentices and existing workers who have completed or are about to complete a Certificate III in Printing & Graphic Arts (Graphic Pre-press).

The full program is 570 nominal hours consisting of the following competencies:

- Apply quality assurance techniques - Advanced
- Develop a detailed design concept
- Output complex images
- Compose and evaluate typography
- Manage colour
- Generate complex imposition
- Set up and operate automated workflow
- Inspect quality against required standards
- Maintain a safe work environment
- Communicate in the workplace
- Capture a digital image.

All students entering this program are eligible to apply for credits under the recognition of prior learning models. This can reduce the training to as little as 3-6 competencies to complete a new qualification.

Classes will conducted from the 12th June 2006 in various ways from classes at 25 Dawson street Brunswick along with on the job assessment at your company and three Saturday workshops and extra evening classes.
