

Email Update – February 2016

It's great to be back!

We hope you had a restful break and we look forward to working with you and your students throughout 2016.

This month's highlights include:

- [2016 Career Advisers Seminar](#)
- [My Brochure](#)
- [New Academic Street – New student portals](#)
- [10% off short courses](#)

This month's highlights

SAVE THE DATE

2016 Career Advisers' Seminar

Friday 15 April 2016

The seminar is a great opportunity to get the latest information on RMIT programs, updates and events.

Morning tea, lunch and notes provided.

Check out a video from the 2015 Career Advisers' Seminar [here](#)

An official invitation will be sent out shortly.

My Brochure

This simple-to-use online tool allows students to create their own personalised RMIT course brochure in minutes. International and local students can use My Brochure to explore RMIT's vocational, undergraduate and postgraduate courses. Potential students can then add relevant extra information (from facilities to funding) before their personalised brochure is emailed to them.

For more info click [here](#)

Get to know RMIT with a campus tour!

Connect with RMIT and give your students the opportunity to learn about study options, work experience, global opportunities and the diversity of campus life at RMIT.

Get in early as dates for 2016 are filling up fast!

For more info, to book in your school visit or campus tour click [here](#)
See you soon.

Courses still available for Semester 1, 2016

There are still some selected Vocational Education courses available for direct entry to RMIT. For any students still looking they can contact Info Corner to see what's available.

Events

International Women's Day

A fantastic opportunity to celebrate women who are building careers in Property, Construction and Project Management.

Details for this event

Date: 8 March 2016

Time: 12-2pm

Location: RMIT, 357 Russell St, Melbourne 3000

Who? Open to all high school students

Why? Give your students the opportunity to learn about careers in and courses relating to Property, Construction and Project Management and speak with current RMIT students who are completing these courses.

[RSVP here](#)

Are your students interested in becoming pilots?

RMIT flight training are hosting drop in sessions at Point Cook throughout February and March.

Experienced flight instructors will be on hand to answer all you need to know about pilot training including fees, what you'll study and how to apply.

Trades tour

Help your students find out more about starting a career in the trades with a free tour of RMIT's trades spaces with an expert guide.

The tour visits specialised refrigeration CO2 labs, plumbing pits, and mock construction sites. Teaching staff will be on hand to answer questions about apprenticeships, pre-apprenticeships, post-trade qualifications and education pathways.

Check upcoming tours [here](#) or to register please email sove.eoi@rmit.edu.au

Science tour

The Science in the City tour takes you on a behind the scenes tour of RMIT's laboratory facilities.

Give your students and their parents the opportunity to learn about the Science courses on offer and the research and training facilities available on campus.

What's happening 'Off-Campus'

Surveying School Based Traineeships

Surveying and geospatial sciences use location to measure, map and model our world. Using modern devices such as GPS and spatial databases, professionals trained in the geospatial sciences manage where things are and how they connect. Surveyors can develop maps, 3D plans,

establish borders, track moving points, pinpoint distances and mark the location of features of the terrain.
Certificate IV in Surveying is now offered as a school based traineeship.
RMIT also offer a demonstration to your students.

RMIT Student Successes

Jaelyne takes Sweden!

Final year Laboratory medicine student Jaelyne Birrell received a competitive overseas grant to undertake work placement in an overseas hospital. During her three-month work placement at the University of Gothenburg in the south of Sweden, Jaelyne expanded her skills, and immersed herself in a different culture.

[Read more about Jaelyne's story here](#)

Science teacher resource

RMIT is a major sponsor of The Royal Institute of Australia's (RiAus) new digital TV channel. The focus of the new digital TV channel is to highlight current science and engineering research, provide teacher notes in new fields of science and career paths in STEM fields.
The notes and video clips are all [freely available online](#) to read, watch, print and download.
